## National Fund for Municipal Workers Request for Reissue of Membership Card

The Board of Trustees of the National Fund for Municipal Workers (the Fund) is continually striving towards finding better and more effective means of communication to members of the Fund.

Issuing membership cards to members is one such an example that has proven extremely effective and highly valued by NFMW members. Not only does it serve as a single source of very important fund related information but makes communication with the Fund trouble-free. In many instances, this membership card is the only reference available to a member's family, in the unfortunate event of the passing away of a member.
